

Mike and the staff at Highland

It is hard, for me, to find the words, that truly express my gratitude for the care given to Petey, while she was with you. I treasured every day that I was able to be with Petey, but also enjoyed being with the other residents and the employees. All these people were a big part of my life in the last three years.

Even with the heartache of Petey's decline, I found support and laughter in my daily visits. It is impossible to single out any specific individuals for the wonderful contributions to Petey's comfort and care. I will truly miss Highland and after a while I would like to visit from time to time.

All of you will forever be in my thoughts and prayers.

Forever Grateful

*Robert Variell
