

Please call to schedule a tour or to discuss our Person Centered Pricing. Because each person is unique, we will first complete a care needs assessment which is then used to calculate the cost of care using our person centered pricing worksheet. Listed below are generalized descriptions of care levels for purposes of creating a starting point for conversation:

Assisted Living – Self Care defined: This person is semi-independent and able to understand and act accordingly with most verbal communication by staff and other providers. He or she will also be able to communicate needs and wants to staff verbally most of the time. Capable of walking and transferring independently (may include the use of a walker). Capable of eating, dressing, grooming, bathing, toileting with supervision (does not require assistance). Has full control of bladder and bowel functions.

Assisted Living – Total Care defined: This person is dependent on others for care and to oversee their personal safety. He or she will be capable of walking with assistance and/or uses a wheelchair independently (or with assistance). Requires assistance with two or more ADL's (eating, bathing, dressing, toileting, transferring and walking, continence). Requires staff assistance and supplies to manage incontinence of bladder or bowel or both. Requires occasional reassurance and/or redirection (verbal) by staff due to moderate confusion, disorientation, anxiety and/or agitation.

Memory Care defined: This person is dependent on others for care and to oversee their personal safety (up to and including exit doors that are alarmed and/or locked). He or she will require assistance with two or more ADL's (eating, bathing, dressing, toileting, transferring and walking, continence). Requires staff assistance and supplies to manage incontinence of bladder or bowel or both. Requires frequent redirection and/or intervention (hands-on or limited 1:1 assistance) by staff due to ongoing confusion, disorientation, anxiety, agitation, refuses care, refuses medications, sundowning syndrome, exit seeking and other disruptive/repetitive behaviors.

		Companion Room	Private Room
Assisted Living – Self Care (Room & Board* plus Person Centered Pricing Plan**)	Starting at	\$ 66.00/day = \$1980/mo.	\$81.00/day = \$2430/mo.
Assisted Living – Total Care (Room & Board* plus Person Centered Pricing Plan**)	Starting at	\$ 95.00/day = \$2850/mo.	\$110.00/day = \$3300/mo.
Memory Care (Room & Board* plus Person Centered Pricing Plan**)	Starting at	\$ 122.00/day = \$3660/mo.	\$137.00/day = \$4110/mo.

*- **Room & Board** includes furnished room (includes bedding and linens), all utilities (including broadcast TV channels via facility antenna, cable TV is available for extra cost), standard meal service (3x daily plus snacks any time), standard medication management (up to 8 medications administered 2x daily, taken whole, swallowed with water or juice), weekly laundry service, daily access to bathing facilities and 24 hour supervision by staff.

** - **Person Centered Pricing Plan** will be based on a comprehensive care needs assessment that is unique to every individual. As such, each resident will only pay for the specific services that they need. Care needs assessments will be reevaluated twice annually or as needed based on changes in condition.
